

Customer Avatar Photo

DSS

1. Overview

Customer Avatar Photo Module for Magento 2 extension is a helpful and easy-to-use extension which allows website user to choose their profile avatar and admin can also change the user's custom photo and it saves in the database also. Thanks to that, user and admin both changes the avatars.

2. How Does It Work?

2.1 Customer Avatar Photo from **Admin Side** :

Please go to **Customers => All Customers**, then **edit** the customer which you want to select the image for.

Then go to **Account Information** and **upload** the profile picture and then, click on the **Save Customer**.

2.1 Customer Avatar Photo from **Frontend Side** :

First of login the customer as you wish to change the profile picture and if u login with the account which you were changed their profile from backend so you will get the image as you would choosed as.

Also you can choose the profile picture from the frontend side, Go to **My Account => Account Information** and **Upload new avatar** and after selecting the avatar click on **Save**

Button. And your avatar will be changed.

Welcome, Veronica Costello
